KONSTANTIN ONOPRIENKO

PLAYABLE ADS DEVELOPER | GAME DESIGN | AI ENGINEERING

I design and develop 2D/3D playable ads, combining game engineering, creative gameplay design and player experience. My work includes high-performing gameplay cores used for hundreds of LLM-powered creative variations, alongside internal tools and libraries that support production.

EXPERIENCE

SETT.AI

FEB 2026 — OCT 2026

HTML5 Game Developer / AI Playable Engineer

CREATIVE & COMMERCIAL IMPACT

- Designed high-performing 2D/3D playable ad cores for Eatventure, Merge Cruise, EverydayGrids and other titles, with creatives repeatedly ranking among top performers in user acquisition campaigns and advertising spend.
- Built scalable gameplay cores used by creative iteration teams to produce hundreds of creative variations through LLM-powered workflows.
- Designed and implemented an Angry Birds-inspired portrait-mode gameplay system for Splat2, later adopted by the client into the main game.

AI ENGINEERING & DEVELOPMENT SYSTEMS

- Developed structured 2D/3D gameplay code examples for LLM fine-tuning and code generation workflows, primarily using Three.js.
- Created reusable visual effects and particle libraries, shared gameplay components, and developer tools built with Tweakpane.
- Modernized the internal playable build pipeline using Vite to support development and iteration.

MY.GAMES

SUMMER 2025 — JAN 2026

Playable Ads Developer

Developed and optimized HTML5 playable ads; one project was selected by the company as an exhibition showcase of high-quality creative work.

FREELANCE / CONTRACT (ARTIKSTUDIO)

2022 — PRESENT

Playable Ads Developer

Developed 2D/3D playables across genres, with custom mechanics, reusable systems and optimized builds for major ad platforms.

SKILLS

DEVELOPMENT	TypeScript · JavaScript · PixiJS · Three.js · HTML5 · WebGL · GSAP · Spine
GAME DESIGN	Gameplay design · Interaction · Prototyping · Physics · Animation · Shaders
AI & TOOLS	LLM fine-tuning · Code generation · Vite · Webpack · Tweakpane · VFX libraries

EDUCATION & LANGUAGES

Psychology — Specialist Degree · Saint Petersburg State University, 2001–2006

Software Engineering — Private Mentorship · 2022–2024

Languages: Russian (Native) | English (Fluent) | Spanish (Basic)
